Education

Graphic Era deemed to be University, Dehradun
B.Tech in Computer Science & Engineering

2021-2025
8.6/10 CGPA

Experience

Website Developer and Manager Intern

April 2023 - October 2023

HP Realty

New York, USA

- Developed a visually appealing and informative website for HP Realty, increasing time spent on site by 45% and leading to a significant rise in prospective client engagement through enhanced property showcases. The project can be viewed [here](#)
- Enhanced website visibility by 40% by implementing advanced SEO and SEM strategies.
- Boosted website traffic by 30% within the first three months.
- Internship [certificate](#)

Projects

Movie Recommender System | *Python, streamlit, TMDB API*

June 2024 – July 2024

- * Built a web application using Python, streamlit and TMDB's 5000 movie dataset and the bag-of-words NLP technique.
- * Integrated TMDB's API to fetch movie data from TMDB's website and achieved 95% accuracy while recommending movies.

Event Management System | *MERN stack, Typescript, Tailwind, Stripe*

June 2024 – August 2024

- * Engineered a comprehensive event management platform utilizing Next.js 14 and Node.js, enabling global event creation, management, and ticketing with secure payment integration via Stripe.
- * Implemented full CRUD operations for events and user authentication using Clerk, ensuring efficient and secure user management, as well as seamless event creation, updating, and deletion capabilities.
- * Utilized modern technologies and frameworks, such as TypeScript, Tailwind CSS, React Hook Form, Shadcn, and uploadthing, to build a scalable and responsive application that streamlines event management and improves overall platform performance.

LogicNest | *JavaScript, MongoDB, React, Express, Node.js, TailwindCSS*

February 2024 – April 2024

- * Designed and implemented a full-stack application that aggregates and organizes GitHub repositories, enhancing community engagement and collaboration opportunities.
- * implemented GitHub OAuth and passport.js for user authorization and fetching user repositories.

Technical Skills

Languages: Java, Python, C/C++, SQL (MySQL, MongoDB), JavaScript, HTML/CSS, R, PHP

Frameworks: React, Node.js

Developer Tools: Git, GitHub, Visual Studio Code, PyCharm, IntelliJ, Eclipse, Arduino IDE

Libraries: pandas, NumPy, Matplotlib, jQuery, scikit-learn, streamlit, TensorFlow, keras

Relevant Course Work: Data Structures and Algorithms, Operating Systems, Database Management Systems, Computer Networks, Linux, Bigdata storage and processing, Cloud Computing

Achievements

- Awarded a scholarship of 175 dollars by **Metacrafters**.
- **HackOn With Amazon - Season 4:** Selected among top 138 teams from 38,000 participants.

Strengths

Project Management& Team Leadership : Led a team of 4 members to complete an academic project 2 weeks ahead of schedule.
